

Snakes Of Ridgeview Quarry

by Nick Evans

Ridgeview Quarry is home to a wide range of snake species that range from highly venomous to completely harmless. This photographic guide will help you identify some of the more common snakes in this area. Never try to kill or catch the snake. Snakes play a vital role in the environment and should be left alone to play their part in the food chain.

Black Mamba 	Mozambique Spitting Cobra / mFezi 	Vine Snake / uKhokoti 	Night Adder / Inhlangwane 
Stiletto Snake  Mildly Venomous	Natal Black Snake  Mildly Venomous	Short-Snouted Grass Snake  Weakly Venomous	Herald Snake  Weakly Venomous

 Nick Evans - Snake Rescuer

The KwaZulu-Natal Amphibian & Reptile Conservation initiative was founded by Nick Evans in 2015. The aim of this initiative is to create an awareness and understanding of these misunderstood animals through conservation and educational efforts.
For snake identifications, removals and presentations please visit www.nickevans.co.za or email Nick on nickevanskzn@gmail.com or phone (072) 809-5806.

Never pick up any snake, alive or dead. Either have the snake identified by a professional or contact a professional to remove it. Always treat snakes with respect that they deserve and admire them from a distance.
